Slaven Moravčević is a partner who heads the firm's dispute resolution practice in Serbia and the region. He is also specialised in real estate, energy and corporate/m&a. Slaven led the State of Montenegro to seven major arbitration wins, five in investor-state arbitrations and two in high-value and high-complexity commercial arbitrations, including in relation to three arbitrations (exceeding EUR 1 billion) under the UNCITRAL and ICSID initiated by the Russian billionaire, Oleg Vladimirovich Deripaska. He is leading the team representing United Group B.V., Adria Serbia Holdco B.V., Serbia Broadband-srpske kablovske mreže d.o.o. Beograd (owned by BC Partners), as claimants, in investment arbitration against Republic of Serbia, under the bilateral investment treaty between Serbia and The Netherlands. Slaven recently represented a construction company in two ICC arbitrations against two construction companies in one of the largest African states, each of which is worth between EUR 4 million and EUR 10 million. He has also spearheaded our team's successful settlement of a large construction dispute connected to certain traffic infrastructure construction. So far, he has been involved in arbitrations under all major sets of arbitration rules, including ICC, UNCITRAL (1976 and 2010), LCIA, FTCA (Foreign Trade Court of Arbitration with the Serbian Chamber of Commerce), ICSID and ICSID Additional Facility. Slaven is a chairman of Construction Dispute Resolution Centre - CDRC, the pioneering regional centre that is exclusively committed to the prevention and resolution of disputes within the construction sector. Furthermore, Slaven is on the list of arbitrators of the Permanent Arbitration at the Serbian Chamber of Commerce and the list of practitioners of Vienna International Arbitral Centre (VIAC).

"Slaven Moravčević is an amazing lawyer. It is a pleasure working with him because he is very proactive and reliable."
